

Introduction to Information Systems

Data Science Education Program

Chapters #3 and #4

#3: Information and communication technologies

#4: databases and data warehouses

Practical Exercises

- In the two lectures this week we have introduced:
 - Chapters #3 and #4
- In this laboratory session you are required to complete the following practical exercises and questions:
 - Chapter #3: Excel Application 3.21 (analyzing growth in computer storage capacities)
 - Chapter #3: work through and answer the *Projects and Discussion Question: 3.14*
 - Chapter #4: Excel Application 4.29 (managing catering supplies)
- In Chapters #3 and #4 you will find 2 case studies in each chapter:
 - Read and work through the case studies and answer the discussion questions
